

History

Many people have sentiments for social service. So we wanted to start social service ventures to get those people. Also we wanted to some service to society. We wanted to give them good education along with the culture of Krishna consciousness. To reach CSR this was good platform. We could set up good relationship with corporate and slowly get them also to Krishna consciousness. We collaborated with Bhakti Purushottam Maharaj in his tribal Care initiatives. We started this venture in December 2016. Maharaj is focusing on Tripura, Bengal, Jharkhand, Orissa and Assam. They are having health camps; they are helping in employment and preaching in mass scale. Maharaj has also adopted 2 schools in Tripura. We were thinking where we can play a role we decided to work in higher education. We wanted to reach existing government schools. We decided to train 9, 10, 11 and 12th standard students. We started teaching them, math, science, English and Krishna consciousness.

Overview

We have chalked out the whole curriculum, when to introduce chanting like that. We have hostel facilities for those students who have serious inclination for chanting. We have team of teachers who are actually going to tribal areas and making good relationships with students and schools. We have 4 teachers. 5 days they stay in tribal locations. They take extra tuitions for boys, they have morning program, we have system by which we see that boys performance is increasing or not? That will reflect how much successful we are, this is the figure which we show to get CSR funds. We keep checking the levels of the boys.

Financial management

From donations we took out some for paying to teachers. We now have a model and now we can present to company to get donations. We have 4 schools we have agreement we have 400 students we can show to them and get funds for executing our activities. We will not move to other model till we get funds.

Hierarchy

We have presentation team who meet with the school leaders and make the tie up. We have 4 teachers, 2 for 9th and 10th and 2 for 11th and 12th. the senior boys do help in carrying out the classes. We have team which develop syllabus and future plans. We are using service orientated accounting software to keep track of donations. We have one person who has been trained to file all these things nicely.

Unique features

We are able to reach out in mass way. People are seeing we want to help them genuinely so they are taking Krishna consciousness seriously. Not only these students but their mother father and everyone is taking to Krishna consciousness.
